THE PAIN POINTS OF E-COMMERCE AND LOGISTICS BUSINESS

In E-commerce and Logistics business, the main factors may cause a claim are:

1) Parcel lost

2) Goods are damaged

3) Quantity of the goods is less

Parcel Lost

Parcel Damaged

Quantity is Less

LIMITATIONS OF EXISTING SYSTEM

In order to solve the dispute of the issue, E-commerce retailers need to find out the fact or evidence of the issues. But in the existing system, there are a lots of limitations:

No Video Recording

for all dealing process

No Video Tracking

cross facilities

Low Operation Efficiency

in searching evidence

LETS TALK ABOUT SOLUTION

Visual Parcel Tracking

Unified platform to manage all the Camera system in different facilities. Support to tracking the parceltransfer by video.

High Resolution

Deploy high resolution camera in all the parcel dealing process. Keep recording for all the dealing process.

Software base Video Download

Support to search evidence by order number, can get video clips in seconds. Will short the time of complaint dealing process greatly.

End User Value:

- Reduce man power and claim lost
- Improve operation efficiency
- Improve competition advantage
