Sound Energy Generates Electricity: An Exploratory Study

**ABSTRACT:**

We all know everywhere there is huge scarcity of energy and for running most of our appliances and to carry out dailywork we need electricity. It’s really very difficult to imagine our life without electricity, our life would really stop so thereis high need, to produce electricity at faster rate and find some other feasible method to produce electric energy.

On theother hand we see that in this modern world there is lot of noise pollution in roads, airports, industries. Just think if wewould be able to convert this NOISE POLLUTION TO ELECTRIC ENERGY ...??? Yes this could be made possible.

ASSOUND HAS ENORMOUS AMOUNT OF ENERGY WITH IT, WHICH COULD BE USED ...BY CONVERTING IT INELECTRIC ENERGY
